Product Description

Z-Aerate 50" Stand-On Aerator - ZA5850

Take your productivity and profitability to new heights with the new Z-Aerate 50 stand-on aerator. Armed with a 50-inch, 12-row aeration head, and a 25 HP Kohler Command Pro V-Twin engine, the Z-Aerate 50 is capable of aerating up to three acres an hour. The full-floating tine head and articulating front axle lets the Z-Aerate 50 adjust to the contours of the landscape while maintaining consistent aeration depth. Easily maneuver around trees, flowerbeds, and other landscape features while aeration thanks to the split-reel tine design. And with intuitive controls and zero-turn maneuverability, the Z-Aerate 50 delivers precise control and maximum efficiency, with reduced operator fatigue.

The Z-Aerate 50 is capable of pulling plugs with a core depth of up to 3.5-inches thanks to heavy-duty tines and integrated hydraulic down-pressure. Adjust core depth in 1/4-inch increments due to the precision adjustment system. The independent high-torque pumps and wheel motors deliver ground speeds of up to 10mph forward, and 5mph reverse. The 8-gallon fuel capacity lets you aerate longer between fill-ups.

Perform two jobs at once with the integrated spreader with 150-pound capacity hopper. Plus, a wide variety of accessories are available, making the Z-Aerate 50 a highly productive multi-functional tool. Choose from a 30-gallon sprayer, 36-inch slicer seeder, 46-inch dethatch rake, or 40-inch spike aeration head. This gives you the ability to perform and bill for multiple jobs at once, dramatically increasing profitability.

When you're ready to take your aeration program to the next level, the Z-Aerate 50 is ready to deliver.
