Product Description

PRODUCTIVITY IN COMFORT

The V-Ride XL proves that it's possible to be tough as nails and soft as a cloud. Its solid frame and expansive operator platform with an adjustable suspension to reduce vibration ensure you're always riding in comfort no matter how big the job. Upgraded pumps and wheel motors are extra rugged and reliable, giving you confidence you're always ready to tackle whatever comes your way.

HUGE POWER, UP TO 40 HP

Choose from Briggs & Stratton Vanguard®, Kawasaki® or Kohler engines; electronic fuel injection (EFI) is standard on all V-Ride XL models.

KEEP A REAL-TIME "EYE" ON IMPORTANT SYSTEM FUNCTIONS

The Tiger Eye™ Advanced Monitoring System monitors a wide variety of systems in real-time, giving you valuable information in just a glance, right from the operator's seat. (Specific functions vary by mower model and engine.)

MORE UPTIME

Comfort cushion and lower panel are removable to allow quick and easy service access to the hydraulic system. This gives operators unrestricted engine compartment access for easy-to-reach grease Zerks and many more features, making servicing the V-Ride XL simple. Spend less time in the shop and more on the job.

SPEEDS UP TO 11.6 MPH

Heavy-Duty Hydro-Gear pumps (16 cc) and high-torque Hydro-Gear wheel motors (18 ci) deliver dependable power, with speeds up to 11.6 mph. Pump shock valves ensure reliability and long life. Cooling fans help maintain safe operating temperatures.
