Product Description

Echo ES-250 Blower Vacuum

Features

- 25.4 cc professional-grade, 2-stroke engine for outstanding performance
- 391 CFM and 165 MPH performance
- All pipes included to convert from shredder to blower
- Exclusive curved blower tube provides rotational control to reduce user fatigue (when set up as a blower)
- Positive locking collar secures blower pipe
- Patented 4-blade shredding mechanism reduces debris by a ratio of 12:1
- 2-bushel collection bag with a rear zipper for convenient emptying

Best Use

- **Residential Yard Cleanup** - Ideal for clearing leaves, grass clippings, and light debris from home properties.
- **Seasonal Leaf Management** - Effective for fall cleanup and regular yard maintenance routines.
- **Small Property Maintenance** - Suitable for homeowners managing driveways, lawns, and garden spaces.
- **Light Landscaping Support Work** - Useful for quick cleanup tasks in professional or semi-professional settings.

Convertible Shred N Vac for Efficient Yard Cleanup

The Echo ES-250 Shred N Vac delivers dependable performance with a 25.4cc 2-stroke engine, 391 CFM airflow, and a patented 12:1 shredding system for efficient debris reduction. This reliable Shred N Vac is designed for homeowners and light-duty users who need a versatile blower and vacuum combination for fast and convenient yard cleanup.
