Product Description

Echo Tiller TC-210

Features

- **21.2 cc Professional-Grade 2-Stroke Engine** - Delivers reliable power for cultivating gardens, flower beds, and landscaping projects.
- **10-Tooth Hardened-Steel Tines** - Four reversible tines provide smooth tilling performance and are backed by a lifetime warranty.
- **Up to 9" Tilling Width** - Creates furrows up to 9 inches wide for efficient soil preparation in compact gardening spaces.
- **Worm Gear Transmission** - Features a 42:1 gear reduction that delivers high tine RPM and increased torque for effective tilling.
- **Waterproof Stop Switch & Throttle Control** - Conveniently positioned at the operator's fingertips for improved control and reliability.
- **Integrated Kickstand** - Allows for stable, convenient storage when the tiller is not in use.

Best Use

- **Home Garden Preparation** - Ideal for breaking up soil and preparing vegetable gardens, flower beds, and planting areas.
- **Landscape Maintenance** - Perfect for loosening compacted soil and mixing in compost or other soil amendments.
- **Small Gardening Projects** - The compact design and 9-inch tilling width make it well suited for working in tight spaces and between planting rows.
- **Seasonal Soil Cultivation** - An excellent choice for preparing soil before planting and maintaining healthy garden beds throughout the growing season.

21.2 cc Gas Garden Tiller with Hardened Steel Tines

The Echo Tiller TC-210 combines a powerful 21.2 cc professional-grade 2-stroke engine with four reversible hardened-steel tines, a high-torque worm gear transmission, and a compact design for dependable soil preparation. This [reliable gas tiller](#) is designed for homeowners and landscapers who need efficient cultivation for gardens, flower beds, and other landscaping projects.
