Product Description

Billy Goat AET60 Towable Aerator

At up to four acres an hour, the tow behind AET60 maximizes large property aerations and configures to widths of 36", 48" or 60" with a simple flip up or down of the aerator's wings. This unit weighs 440 lbs without supplemental weights for deep, hard soil aeration.

For ultimate maneuverability, the AET60 also features swiveling tine assemblies (when used with 3-point hitch). It mounts to a standard tow bar or category 1, 3-point hitch, runs up to 5 mph, and pulls behind any type of tow vehicle (20 HP or more). This unit provides a quality 6" x 7" aeration pattern up to 4" deep. Built-in manual jack lifts and lowers tines with ease. Two pneumatic wheels for transport. Note: Will accept cinder blocks or sandbags for weight.

Features -

Category 1, 3-Point Hitch Mounting:

Tines swivel for 3-point hitch mounting.

80 Hardened Steel Tines:

Provides more efficient extraction of plugs. Tine wheels swivel for superior maneuverability (when used with 3-point hitch)

Foldable Wings:

Wings raise and lower for desired aeration width, 36", 48" or 60".

Manual Lift:

Raise and lower tines with ease.

Best Use

- **Large Property Aeration** – Ideal for maintaining residential estates, sports fields, parks, and commercial landscapes.
- **Compacted Soil Treatment** – Helps improve turf health by creating channels for water, nutrients, and oxygen.
- **Commercial Grounds Maintenance** – Designed for landscaping professionals handling large-scale aeration projects.
- **Seasonal Lawn Renovation** – Supports healthy root development during spring and fall lawn care programs.

- **Tractor and Tow Vehicle Operations** – Perfect for operators using 20 HP or larger riding mowers and tractors for turf maintenance.

Tow-Behind Lawn Aerator for Large Property Maintenance

The Billy Goat AET60 Towable Aerator is engineered for efficient large-area turf management with adjustable 36-inch, 48-inch, and 60-inch working widths, 80 hardened steel tines, and aeration depths up to 4 inches. This [heavy-duty towable aerator](#) is designed for property owners and landscaping professionals who need productive, reliable performance to improve soil conditions and promote healthier turf across large properties.
