Product Description

Scag Turf Tiger II

THE APEX PREDATOR

It's time for you to rise to the top of the food chain and tame turf with the Turf Tiger II™, a machine that's tougher than any job you can throw at it. Engineered for superior durability, productivity, and comfort, the Turf Tiger II gives you the edge over whatever nature throws at you while leaving you ready to take on the next challenge.

Features:

Auxiliary Hydraulic Oil Cooler

Standard-equipment oil cooler extends system life by keeping the hydraulic oil cooler. Cooler location utilizes the engine airflow to draw cool air through the cooling fins.

Industrial-Grade Hydraulic System

Dual Hydro-Gear pumps (16 cc) and Parker wheel motors (18 ci) deliver dependable power. Pump shock valves ensure reliability and long life. Cooling fans help maintain safe operating temperatures.

Driveshaft-Driven Cutter Decks

A driveshaft connects the engine to the deck, eliminating the long belt drive and increasing cutting-height range.

Heavy-Duty, Double-Tube Steel Main Frame

The Turf Tiger™ is ultra-strong and built for long life. It has a wide mower stance and extra-low center of gravity for ultimate stability and a replaceable front caster-wheel weldment.

Tiger Eye Advanced Monitoring System

Depending on the mower model and engine selection, the Tiger Eye™ Advanced Monitoring System monitors a wide variety of systems in real-time, giving you valuable information in just a glance, right from the operator's seat.
